ACTION TAKEN REPORT ON ALUMNI FEEDBACK

ACADEMIC YEAR 2019-20

The IQAC of NMSM Government College Kalpetta collected feedback from alumni for the academic year 2019-20 to assess the institution's performance in various domains. This feedback contributed significantly to shaping the institution's future strategies. The college responded by enhancing the curriculum through the successful implementation of Outcome-Based Education (OBE) across undergraduate and postgraduate programs. Alumni input also supported the expansion of academic offerings, with the introduction of MA History and BSc Chemistry in 2020, ensuring that the college met the growing demands of contemporary education.

The institution continued to focus on student success by reinforcing the Mentor-Mentee System, which played a vital role in guiding students and improving their academic journey. Additionally, alumni efforts and resources helped the college to expand scholarship support, reaching 91.23% of socially and economically disadvantaged students. The institution's support for physically challenged students, including the use of assistive technologies and scribes during exams, further ensured that these students could overcome challenges in their academic pursuits.

Alumni engagement extended to research and extension activities. The college strengthened its research culture, resulting in increased publications by faculty members in prestigious national and international journals. Alumni collaboration in community engagement efforts under the Sahavarthithwa initiative continued to make a significant impact on tribal communities and visually impaired individuals.

Infrastructure improvements were also a priority, with alumni input guiding the enhancement of ICT-enabled classrooms, the development of laboratories for the BSc Chemistry program, and library upgrades for the MA History course. Sustainability remained a core focus, with the installation of solar power panels contributing to the institution's eco-friendly initiatives. Finally, e-governance systems were implemented to enhance operational efficiency and ensure smooth administrative processes.
