ACTION TAKEN REPORT ON STUDENTS FEEDBACK

ACADEMIC YEAR 2022-23

In the academic year 2022-23, students at NMSM Government College Kalpetta experienced a wide range of improvements aimed at enhancing their learning environment and overall college experience. One significant initiative was the renovation of the college canteen, which provided students with modern seating arrangements, improved ventilation, and hygienic food preparation areas. This has led to a cleaner, more comfortable space where students can relax and socialize while enjoying affordable, nutritious meals.

The installation of an interactive panel in the seminar hall represented a leap forward in integrating technology into the learning experience. This panel, used for seminars and presentations, allowed for more dynamic, interactive learning sessions. Students benefited from the interactive nature of the technology, which helped to make learning more engaging and inclusive. Additionally, faculty were trained on the panel's use, ensuring that students could fully take advantage of the digital whiteboarding, media integration, and touch capabilities of the system.

To further support students' academic success, the college updated its library facilities. Digital access points were expanded, enabling students to easily access e-books and research materials. The introduction of new library management software streamlined the process of borrowing books, improving efficiency and making resources more accessible. Furthermore, the reading areas were renovated to create a more conducive environment for study and research.

An expanded Mentor-Mentee system was another highlight for students. Through regular meetings, students received academic and personal support, allowing them to address challenges more effectively. For those facing academic difficulties, remedial classes were provided to ensure that they could keep pace with their studies and achieve their full potential.
