ACTION TAKEN REPORT ON TEACHERS FEEDBACK

ACADEMIC YEAR 2022-23

The 2022-23 academic year was transformative for the teaching faculty at NMSM Government College Kalpetta. With the installation of an interactive panel in the seminar hall, faculty members gained access to a powerful teaching tool that revolutionized the way they delivered lectures and presentations. The college provided comprehensive training for faculty on the panel's various features, including touch capabilities, digital whiteboarding, and media integration. This training empowered teachers to create more interactive, engaging classroom experiences, enhancing both teaching and learning outcomes.

The faculty also benefited from improved research infrastructure. A dedicated research committee was established to support faculty research initiatives, leading to increased collaboration with industry and other academic institutions. This collaboration allowed faculty to participate in cutting-edge research projects, many of which focused on community development and sustainability. Several faculty members published their research in reputable academic journals, furthering the college's commitment to academic excellence and contributing to the institution's growing research profile.

Additionally, the college's efforts to enter into new Memorandums of Understanding (MOUs) with various industries and academic institutions provided faculty members with opportunities for professional development and faculty exchange programs. These initiatives enabled teachers to not only improve their skills and knowledge but also to expose students to the latest developments in their respective fields, ensuring a more comprehensive educational experience.
