**ACTION TAKEN REPORT ON TEACHERS FEEDBACK**

**ACADEMIC YEAR 2023-24**

The academic year 2023-24 brought numerous improvements for the teaching faculty at NMSM Government College Kalpetta. One of the most notable developments was the college's response to feedback regarding faculty effectiveness. To address this, the college planned to provide additional support for faculty members through professional development opportunities. These efforts are aimed at enhancing the quality of education provided.

Another important aspect was the introduction of a dedicated exam center. This initiative, while primarily focused on benefiting students, also serves as a valuable resource for teachers, allowing them to supervise and evaluate online and offline competitive examinations in a more structured environment. The center will provide faculty with the necessary infrastructure to conduct exams efficiently, contributing to the overall academic integrity of the institution.

Moreover, the college emphasized the need for faculty to engage with extracurricular activities, particularly in mentoring student clubs. This involvement allows teachers to guide students in developing leadership and communication skills, which are essential for their personal and professional growth. Faculty participation in these activities further strengthens the teacher-student relationship and fosters a more supportive academic environment.
