E-Waste Management Committee Report

The E-Waste Management Committee of N.M.S.M. Government College was established with the primary objective of effectively managing electronic waste (e-waste) generated within the college premises. E-waste is a growing environmental concern, and our college is committed to implementing responsible and sustainable practices for its disposal and recycling. This report provides an overview of the e-waste collection and disposal activities..

E-Waste Collection

During the academic year [Year], the E-Waste Management Committee organized several e-waste collection drives within the college campus. These drives were conducted in collaboration with various student groups, faculty members, and administrative staff. The e-waste collection drives were promoted through posters, emails, and social media platforms to encourage active participation from the college community.

The collected e-waste included the following items:

- Computers and laptops
- Printers and scanners
- Keyboards, mice, and other peripherals
- Old electronic cables and wires
- Non-functional electronic components
- CRT and LCD monitors

The e-waste collection drives were conducted and were strategically placed in accessible locations across the campus to ensure maximum participation.

The collected e-waste was handed over to Clean Kerala Company, a certified e-waste disposal and recycling firm. Clean Kerala Company adheres to all environmental regulations and ensures safe and eco-friendly disposal of e-waste. The partnership with Clean Kerala Company demonstrates our commitment to responsible e-waste management and contributes to a cleaner and greener environment.

The E-Waste Management Committee is dedicated to promoting sustainable practices and environmental responsibility within the college community. Our efforts in e-waste collection, partnership with Clean Kerala Company, and awareness campaigns have contributed to the responsible management of electronic waste generated within our campus.

We express our gratitude to all the students, faculty members, and staff who actively participated in our e-waste collection drives and supported our initiatives. Together, we can continue to make a positive impact on our environment.

The total e-waste collected during the academic year is as follows:

CERTIFICATE

Certified that the Electronic items listed below at N.M.S.M Government College Kalpetta, Wayanad, Puzhamudi (P.O), PIN 673122, are presently damaged and not in use as per the stock verification report 2018-19. The Warranty of the items listed is expired and there is no annual Maintenance Contract for the items listed below now.
